

PR1600 SERIES

Precision Conveyor Rollers

Would you like a roller suitable for under-belt application or medium-heavier loads? Why not try our **PR1600 SERIES**...

These rollers consist of a mild steel tube finished with BZP as standard, mild steel axle and greased ball bearings encased in a metal housing.

Excellent slave rollers for powered conveyors or a step up from the RG800 & RG1200 Series if you need a manual roller capable of weightier load.

0-80°C
